Subject Index

- Acetic acid,
 Instability of emulsion liquid films induced by transfer of — (Ivanov et al.) 311
- Adhesive strength,
 The effect of mechanical forces on — in bridging flocculation (Mühle) 249
- Adsorption,
 — of aminefluorides onto glass and the determination of surface free energy, zeta potential and adsorption layer thickness (Busscher et al.) 161
 A study of fluorosurfactant — at the gelatin/air interface using contact angle and XPS measurements (Batts) 133
 Heats of immersion in multilayer — from binary liquid mixtures on strongly heterogeneous solid surfaces (Rudziński et al.) 317
 On the — properties of surface-chemically pure aqueous solutions of soluble n-alkyl-dimethyl and n-alkyl-diethyl phosphine oxides (Lunkenheimer et al.) 215
- n-Alkyl-diethyl phosphine oxides,
 On the adsorption properties on surface-chemically pure aqueous solutions of soluble n-alkyl-dimethyl and — (Lunkenheimer et al.) 215
- Aminefluorides,
 Adsorption of — onto glass and the determination of surface free energy, zeta potential and adsorption layer thickness (Busscher et al.) 161
- Aqueous anionic surfactant,
 Positively charged colloidal species in — solutions (Vurdela, Laskowski) 77
- Axisymmetric edge contact,
 Capillary phenomena. Part 27. Flotation of a solid rod, cone or spherical segment at a fluid/fluid interface making — (Boucher, Jones) 237
- Binary liquid mixtures,
 Heats of immersion in multilayer adsorption from — on strongly heterogeneous solid surfaces (Rudziński et al.) 317
- Black foam films,
 Direct measurement of disjoining pressure in — I. Films from an ionic surfactant (Exerowa et al.) 171
- Calorimetric measurements,
 — of the heat of solution and immersion of minerals in water using a new calorimetric vessel (Zimmermann et al.) 1
- Capillary phenomena,
 — Part 27. Flotation of a solid rod, cone or spherical segment at a fluid/fluid interface making axisymmetric edge contact (Boucher, Jones) 237
- Cationic character,
 The flocculation of kaolin suspensions with cationic polyacrylamides of varying molar mass but the same — (Gill, Herrington) 51
- Coagulation,
 — of latex dispersions in the presence of some organic compounds (Zimehl, Lagaly) 225
- Coal,
 An investigation of a separation process involving liquid-water- — systems (Keller, Burry) 37
 The contact angle of water on — (Keller) 21
- Conductances,
 Streaming currents, streaming potentials and — of concentrated dispersions of negatively-charged, monodisperse polystyrene particles. Effect of adsorbed tetraalkylammonium ions (Van den Hoven, Bijsterbosch) 187
- Contact angle,
 A study of fluorosurfactant adsorption at the gelatin/air interface using — and XPS measurements (Batts) 133
 The — of water on coal (Keller) 21
- Dielectric behaviour,
 — of flowing thixotropic suspensions (Mewis et al.) 271
- Diphilic substances,
 Surface activity of — at different liquid interfaces (Markina et al.) 9
- Disjoining pressure,
 Direct measurement of — in black foam films. I. Films from an ionic surfactant (Exerowa et al.) 171
- Emulsion liquid films,
 Instability of — induced by transfer of acetic acid (Ivanov et al.) 311

- Ferric phosphate,
Preparation and growth kinetics of mono-dispersed — hydrosols (Wilhelmy, Matijević) 111
- Film flotation,
Characterization of the lyophobicity of particles by — (Fuerstenau, Williams) 87
- Flocculation,
The effect of mechanical forces on adhesive strength in bridging — (Mühle) 249
The — of kaolin suspensions with cationic polyacrylamides of varying molar mass but the same cationic character (Gill, Herrington) 51
- Flotation,
Capillary phenomena. Part 27. — of a solid rod, cone or spherical segment at a fluid-fluid interface making axisymmetric edge contact (Boucher, Jones) 237
- Fluid/fluid interface,
Capillary phenomena. Part 27. Flotation of a solid rod, cone or spherical segment at a — making axisymmetric edge contact (Boucher, Jones) 237
- Fluorosurfactant,
A study of — adsorption at the gelatin/air interface using contact angle and XPS measurements (Batts) 133
- Foam films,
Direct measurement of disjoining pressure in black —. I. Films from an ionic surfactant (Exerowa et al.) 171
- Gelatin/air interface,
A study of fluorosurfactant adsorption at the — using contact angle and XPS measurements (Batts) 133
- Glass,
Adsorption of aminefluorides onto — and the determination of surface free energy, zeta potential and adsorption layer thickness (Busscher et al.) 161
- Growth kinetics,
Preparation and — of monodispersed ferric phosphate hydrosols (Wilhelmy, Matijević) 111
- Heats of immersion,
— in multilayer adsorption from binary liquid mixtures on strongly heterogeneous solid surfaces (Rudziński et al.) 317
Calorimetric measurements of the heat of solution and — of minerals in water using a new calorimetric vessel (Zimmermann et al.) 1
- Heat of solution,
Calorimetric measurements of the — and immersion of minerals in water using a new calorimetric vessel (Zimmermann et al.) 1
- Hydrosols,
Preparation and growth kinetics of mono-dispersed ferric phosphate — (Wilhelmy, Matijević) 111
- Kaolin suspensions,
The flocculation of — with cationic polyacrylamides of varying molar mass but the same cationic character (Gill, Herrington) 51
- Latex dispersions,
Coagulation of — in the presence of some organic compounds (Zimehl, Lagaly) 225
- Liquid bridge systems,
Influence of oil-soluble surfactants upon two-fluid — (Pintér et al.) 291
- Liquid imbibition,
The condition of starting of — in powders (Bán et al.) 301
- Lyophobicity,
Characterization of the — of particles of by film flotation (Fuerstenau, Williams) 87
- Oil-soluble surfactants,
Influence of — upon two-fluid liquid bridge systems (Pintér et al.) 291
- Particle deposition process,
The evaluation of tangential forces due to surface inhomogeneities — (Czarnecki, Warszński) 207
- Plateau border,
Flow in a — (Koczo, Rácz) 97
- Polyacrylamides,
The flocculation of kaolin suspensions with cationic — of varying molar mass but the same cationic character (Gill, Herrington) 51
- Polynucleotide,
Surface pressure and surface potential isotherms of some — monolayers (Dhathathreyan) 81
- Polystyrene,
Streaming currents, streaming potentials and conductances of concentrated dispersions of negatively-charged, monodisperse

- particles. Effect of adsorbed tetraalkylammonium ions (Van den Hoven, Bijsterbosch) 187
- Positively charged colloidal species,
 - in aqueous anionic surfactant solutions (Vurdela, Laskowski) 77
- Quartz,
 - The transition region between aqueous wetting films on — and the adjacent meniscus (Zorin et al.) 147
- Streaming currents,
 - , streaming potentials and conductances of concentrated dispersions of negatively-charged, monodisperse polystyrene particles. Effect of adsorbed tetraalkylammonium ions (Van den Hoven, Bijsterbosch) 187
- Surface activity,
 - of diphilic substances at different liquid interfaces (Markina et al.) 9
- Surface free energy,
 - Adsorption of aminefluorides onto glass and the determination of —, zeta potential and adsorption layer thickness (Busscher et al.) 161
- Surface potential,
 - Surface pressure and — isotherms of some polynucleotide monolayers (Dhathathreyan) 81
- Surface pressure,
 - and surface potential isotherms of some polynucleotide monolayers (Dhathathreyan) 81
- Tangential forces,
 - The evaluation of — due to surface inhomogeneities in particle deposition process (Czarnecki, Warszyński) 207
- Tetraalkylammonium,
 - Streaming currents, streaming potentials and conductances of concentrated dispersions of negatively-charged, monodisperse polystyrene particles. Effect of adsorbed — ions (Van den Hoven, Bijsterbosch) 187
- Thixotropic suspensions,
 - Dielectric behaviour of flowing — (Mewis et al.) 271
- Wetting films,
 - The transition region between aqueous — on quartz and the adjacent meniscus (Zorin et al.) 147
- XPS,
 - A study of fluorosurfactant adsorption at the gelatin/air interface using contact angle and — measurements (Batts) 133
- Zeta potential,
 - Adsorption of aminefluorides onto glass and the determination of surface free energy, — and adsorption layer thickness (Busscher et al.) 161
